Department.
FORT ST.GEORGE,MADRAS.

Sir,

The outpatient prescription tickets (Medical I Group form No.23) required for use of the three Municipal Dispensaries were printed locally at the Saraswathi Printing Works,Ltd., at a flat rate of Rs.30/- for 25,000 tickets. The local printing of these forms at that rate was permitted by Government in their order No.MS.351 P.H., dated the 6th February 1934 when it was represented to Government that,in the alternative,if the tickets were got from

got from the Government Press, Madras, the Council would have had to pay Rs.164/-

This year however the Press have charged in their - bill dated the 22nd April 1937, Rs.34.8.0 against Rs.30/- the usual rate and they state that the extra cost is on account of the higher cost of paper incurred by them namely about Annas eight extra per ream of single 12 lbs foolscap paper. They also state that if they are not paid the amount of their bill for Rs.34.8.0 they will not be in a position to undertake the work next time.

I therefore request you will be pleased to sanction the additional cost of the printing of the prescription tickets and the payment of Rs.34.8.0 in future.

Your obedient servant,

COMMISSIONER, M.M.

Station Madras., *Dated the* 18th November 19 37

From (Name) A. Lepper Esq.,

(Designation) Superintendent, Government Press.,

To The Assistant Secretary to the Government of Madras,

Education and Public Health Department.

Madras.

Sir,

p3 ans

With reference to Government Memorandum No.12489-1 D2 Public Health dated 13.8.37 I have the honour to invite a reference to this office letter No. C.260, dated 4.3.37 in the matter of charging work for local bodies. The present supply of 25,000 copies of forms (Medl.I-23) can be arranged by this press at a cost of about Rs.45/- excluding freight charges if an order is placed for full quantity at one and the same time. There does appear to be much disparity between this amount and that charged by the private printer for the work.

The printing of the prescription ticket by the local

bodies at private presses is opposed to the instructions issued in paragraph 3 of G.O. No.1193 Public Health dated 20.5.35 and in paragraph 80 of the printing manual. When there is a stock of standardised forms held in this office as available for sale to local bodies, the action of getting such forms independantly printed by them will defeat the purpose of stocking the forms in the Press.

It would be well if a general instruction is issued to all local bodies to get their supplies from the Press direct of such of the saleable forms stocked here irrespective of a small difference in cost. As the forms under reference have already been printed the action of the Chairman, Municipal Council, Mangalore may, as a special case, be approved at the revised rate quoted by the Press.

Copy of letter No. C 260 dated 4.3.37 from A.G. Anderson Esq Officiating Superintendent, Government Press, Madras, to the Secretary to Government, Education and Public Health, Fort St. George, Madras.

With reference to Education and Public Health Department Endorsement No. 171 A-1, dated 25th January 1937, I have the honour to submit below a copy of this office letter No. S.G.P. U.O. C-77 dated 6th July 1936 to the Secretary to Government, Local Self-Government Department.

Copy of this office letter No. S.G.P. U.O. No. C.77 dated 6th July 1936 to the Secretary to Government, Local Self-Government Department.

It is impossible to compare the cost in the Government Press with that of private presses in respect of a single printed job.

2. Government costing is based on average work throughout the year, this being the cause of some works being relatively higher than in private presses while other works would be relatively cheaper.

3. The Government Press has gradually grown to cope with the quantity of Government printing, as such Government are involved annually in certain fixed expenditure for its working, obviously the more work the Press undertakes in a year the less the average cos per printed work, and the more work given to private

presses which could be undertaken by the Government Presses the cost of printing in the Government Press must increase, one of the reasons for para 80 of the Printing Manual.

4. The tendency of small local printers when quoting for Government printing is to give a competitive estimate at a loss for a single form in order to secure contracts for other printing works.

6. Attention is also invited to the correspondence leading to the issue of G.O. Nos. 1193 P.H. dated 20-5-35 and Ms. 4946, L & M dated 30-11-35 in regard to the printing by local bodies of standard medical forms at private Presses.

7. In view of my above remarks I do not recommend sanction being given for printing the form at a private press.

Please see the remarks of the Secretary in the margin above. The cost of printing 25,000 prescription tickets at the local Press, Mangalore is reported to be Rs 34-8-0. In December 1934, the Supdt, Govt Press stated that the estimated cost of printing 30,000 Copies of outpatient prescription tickets was Rs 40/- which works out to Rs 33-5-4 for printing 25,000 tickets. It is thus seen that the cost of printing 25,000 tickets at the Govt Press is cheaper than that (the sum of Rs 34-8-0 charged by a private) at the Govt press in Mangalore. ~~In this~~

Please see the memo on p 3 ✓ and the reply thereto from the S. G. P. on pp 4-5 ✓. The difference between the cost of printing the prescription tickets at the Govt Press and that at the local Press, Mangalore is only Rs 10.8.0. In the circumstances stated by the S. G. P. it does not seem necessary to give permission to the Mangalore md. d. to print the tickets in future locally as it will defeat the purpose of stocking the forms in the press. No tickets have been printed in the present case already
